PROFILE SUMMARY

Working in the tech industry as a developer for over three years has taught me what a well-run team can accomplish. I am eager to bring the new skills I have gained in web development together with my professional experience to the next exciting project.

PROFESSIONAL SKILLS

- Vue 3
- JavaScript
- Node
- Mongoose
- Auth 0
- C#
- MySQL
- Agile / Scrum

WORK SUMMARY

Code Works Student

Full Stack Software Development Bootcamp

February 2021 to present

- This Immersive Course is a full-time experience designed for students looking to start a career in programming. Immersive students learn both front-end and back-end technologies and work in groups under the supervision of experienced mentors to create fully-functional real-world applications.

Phlebotomist/Lab Assistant

Interpath Laboratory - Boise, ID

September 2020 to February 2021

- Input medical data into patient registration software ensuring that the correct test was approved for the patient
- Collect venous blood samples from patients
- Ensure quality customer service to patients and clients by providing accurate information
- Work closely with clients to solve problems that could effect patient care
- Prepare laboratory samples for testing

Line Cook

Nordic Brew Works - Bozeman, MT

August 2018 to March 2019

- Prepare wood fired pizzas with focus on quality
- Work effectively in a team environment
- Provide outstanding customer service to guests and peers
- Creatively and efficiently solve problems as they arise

Solutions Developer

Zoot Enterprise - Bozeman, MT

September 2013 to May 2017

- Responsible for coding credit policy systems per requirements using proprietary computer programs, and testing of credit policy to ensure desired results.
- Work with business partners to negotiate partnership contracts.
- Coordinate with clients to ensure accurately documented business requirements.
- Responsible for staying up-to-date on assigned business partners' products in order to be an internal knowledge foundation for Zoot sales/marketing/delivery teams.
- In-depth cross team collaboration across multiple disciplines to achieve common goals. Working directly with Computer Engineers, Project Managers, Business Analysts, Quality Assurance, Sales, Marketing, Technical Support, and Legal to achieve common goals.
- Worked within an Agile/SCRUM Development Process
